**TUSSIcAPs**  
Hydrocodone polistirex  $\text{CIII}$   
Chlorpheniramine polistirex  
extended-release capsules

Full-Strength 10 mg/8 mg    Half-Strength 5 mg/4 mg

## Powerful Relief

- Efficacious, safe, and proven combination of ingredients provide cough and cold symptom relief

Each extended-release TUSSICAPS capsule contains the equivalent of

	Full-Strength	Half-Strength
<b>Hydrocodone bitartrate</b>	<b>10 mg</b>	<b>5 mg</b>
<b>Chlorpheniramine maleate</b>	<b>8 mg</b>	<b>4 mg</b>

in a polistirex formulation that provides for twice-daily dosing

— Decongestant-free, sugar-free —

## Sustained Relief

- Extended relief from uncontrolled coughs eliminates the need for middle of the night dosing
- TUSSICAPS is dosed every 12 hours

## Patient Preferred Capsule

- **73% of adult prescription cough syrup users said they prefer capsules over liquid medications<sup>1</sup>**
- **Small, easy to swallow capsule**
  - ✓ No unpleasant taste
  - ✓ Convenient
  - ✓ Accurate, without requiring measurement of a liquid
  - ✓ Not messy

1. Harris Interactive<sup>®</sup> fielded the study on behalf of Covidien<sup>™</sup> from Jul. 30-Aug. 1, 2018, via its QuickQuery<sup>™</sup> online omnibus service, interviewing a nationwide sample of 2,034 adults aged 18 and older, among which 983 have ever used prescription cough suppressant syrup. No estimates of theoretical sampling error can be calculated; a full methodology is available.
