Refer to section 1.1.5 and 2.1.5 for details of administrative charges applicable to worksharing procedures under the terms of Article 20 of Commission Regulation (EC) No 1234/2008.

4. Fee determination and payment

4.1. Legal requirements

Article 10 of Council Regulation (EC) No 297/95 stipulates the dates when fees are due and when they are payable.

Fee due date

The fee due date is the date when the Agency determines the total fee amount that is due for an application or service. The applicant's or marketing authorisation holder's obligation to pay that fee starts on that date.

The fee due date corresponds to:

- The date of administrative validation of an application; or
- The date of the start of a procedure (when there is no administrative validation), e.g. for type IA variation fees, transfer fees, Article 30(1) or 31 referrals; or
- The date of the anniversary of the notification of the marketing authorisation decision, for annual fees; or
- The date of the start of an inspection, for inspection fees.

Payment of fees

The Agency's terms and conditions for payment of fees stipulate that an invoice is payable 30 days from the invoice date. That represents the deadline for the applicant to settle the payment.

In summary, the procedure shown in Figure 1 applies.

Figure 1. Procedure for fee determination and payment

Deferred fees

When the applicant is a small or medium-sized enterprise (SME) payment of the fee for a marketing authorisation (MA) application and the fee for inspections undertaken as part of the assessment of a MA application is deferred until the final decision on the MA is issued or the application is withdrawn. The invoice issued at the time the fee is due informs the applicant that the fee is deferred. A reminder is issued by the Agency as soon as there is a decision or withdrawal; the fee is payable within 45 days of the date of the notification of the final decision on the MA or of the withdrawal of the application. The procedure is summarised in Figure 2.

Figure 2. Procedure for fee determination and deferral of payment by SME

The payment of the fee for an application for a MA of a medicinal product to be used in a human pandemic situation, so-called core dossier submission, is deferred until the pandemic situation is duly recognised, either by the World Health Organisation or the European Union, or up to 5 years from the due date, whichever comes first. Nevertheless the deferral can come to an end earlier on withdrawal prior to an opinion on the MA application, or if a negative Commission Decision is issued. A reminder is issued by the Agency as soon as the deferral comes to an end and the fee is payable immediately.

4.2. Criteria for fee determination

The criteria that are taken into account by the Agency when determining the fee that is due are the ones that apply by the fee due date. These include:

- The applicant's status (e.g. valid SME status assigned by the Agency);
- The product type (e.g. advanced therapy medicinal product, designated orphan product, veterinary product for minor uses and minor species (MUMS)/limited markets);
- The product status (e.g. in the first year following grant of a MA); and
- The procedure type.

Any change to the applicable criteria after the fee due date is not taken into account and will not influence the total fee due that has been determined.

4.3. Established fee exemptions

An applicant qualifies for fee exemptions and incentives specified in Chapter 5 provided that the required criteria apply on the fee due date. Any criterion that is no longer valid on the fee due date, e.g. expired SME status, cannot be taken into consideration by the Agency.

Applicants should ensure that they meet all the required criteria at the time of submission of an application or a request for a service.

4.4. Request for ad hoc fee reduction

Applicants may request the Executive Director to grant an ad hoc fee reduction under the provisions of the first paragraph of Article 9 of Council Regulation (EC) No 297/95.

The applicant is required to provide sufficient justification to prove that the request is made (1) in exceptional circumstances and (2) for imperative reasons of public or animal health. The request will be considered by the Executive Director who will consult the competent scientific committee and will decide each request on a case by case basis.

In view of the administrative procedure that has to be followed and the mandatory scientific consultation, applicants are required to make their request in a letter to the Executive Director at least two months before the date of submission of the relevant application. The applicant should cite Article 9, paragraph 1 of Council Regulation (EC) No 297/95 and provide details of the product, procedure type and applicable fee, and the reason(s) for the request that justify exceptional circumstances and imperative reasons of public or animal health.

Applicants are advised that late requests may not be processed in time by the fee due date and may not be taken into consideration when determining the fee. Requests received after the fee due date will not be considered.

Further information on fees and fee exemptions is available on the Agency's website.

5. Fee exemptions

Where an applicant could, in respect of the same fee, benefit from more than one category of fee reduction or incentive (e.g. advanced therapy medicinal product, orphan medicinal product, small and medium sized enterprises) the provisions which are the most favourable to the applicant would apply. The applicant can contact the Agency prior to submission of the application for confirmation of the applicable fee.

5.5.1. Definitions

Total or partial exemptions from the payment of fees for applications for advanced therapy medicinal products for human use are granted as laid down in Articles 16(2) of Regulation (EC) No 1394/2007.

Fee reductions for applications for marketing authorisation and for post-authorisation activities during the first year from granting of a marketing authorisation ceased to apply after 30 December 2011 in the case of advanced therapy medicinal products other than tissue-engineered products and ceased to apply after 30 December 2012 in the case of tissue-engineered products.

5.5.2. Fee incentives for applicants other than micro, small and medium-sized enterprises

Scientific advice	65% reduction to the total applicable fee

5.5.3. Fee incentives for micro, small and medium-sized enterprises

Scientific advice	90% reduction to the total applicable fee (see section 5.1.2)

5.6. Core dossier medicinal products to be used in a human pandemic situation

5.6.1. Definitions

A total exemption from the payment of the fees laid down in the fee regulation is granted for the regulatory activities specified below within the framework of the submission of a core dossier for a pandemic influenza vaccine and the follow-up submission of a pandemic variation, as described in the 'Guideline on Dossier Structure and Content for Pandemic Influenza Vaccine Marketing Authorisation Application' (EMEA/CPMP/VEG/4717/03).

The following total exemptions apply until the type II pandemic variation, submitted once the human pandemic situation is duly recognised, has been authorised by the European Union but, in any case, do not apply after the five-year period from the date of administrative validation of the marketing authorisation application for the core dossier has elapsed.

5.6.2. Fee incentives related to pandemic core dossier (including informed consent) for 'non-recognised' strain

Scientific advice	100% reduction to the total applicable fee
Post-authorisation activities including type-IA, type-IB, type-II variations (but excluding the type-II pandemic variation) and annual fee	100% reduction to the total applicable fee
Negative validation of a type-IB or type-II variation (but excluding the type-II pandemic variation)	100% reduction to the total applicable fee

- The fee for a validated pandemic core dossier marketing authorisation application (MAA), including informed consent application, for a pandemic strain that has not yet been "duly recognised, either by the World Health Organisation or by the Community" is deferred.
- If the core dossier MAA is withdrawn prior to opinion or receives a negative Commission Decision, the fee becomes payable and the deferral comes to an end.
- If the core dossier receives a positive Commission Decision, the fee shall continue to be deferred. The MAH also receives fee reductions on variations and annual fees.
- When the pandemic situation becomes duly recognised, the marketing authorisation holder (MAH) may choose not to submit a Type II pandemic variation. In this case the MAA fee continues to be deferred for up to 5 years from the MAA validation date. The MAH continues to receive fee reductions on variations and annual fees for up to 5 years from the MAA validation date.

- If the MAH chooses to submit a Type II pandemic variation, the initial MAA fee becomes payable on the first submission made as part of the rolling review. When the Type II pandemic variation is validated the applicable Type II fee becomes payable. The MAH continues to receive fee reductions on variations and annual fees until the date of the Type II Commission Decision.
- Fee reductions for scientific advice are applicable to requests in the context of a pandemic core dossier and at any time up to 5 years from the MAA validation date or the date of the Type II Commission Decision, whichever comes first.
- The fee for an emergency pandemic MAA submitted when the pandemic situation has been duly recognised becomes payable on validation.

5.7. Medicinal products for minor uses and minor species (MUMS)/limited markets

5.7.1. Definitions

Exemptions and reductions are granted on fees relating to applications for products classified by the Committee for Medicinal Products for Veterinary Use (CVMP) as indicated for minor use and/or minor species or for which the market is confirmed by the Committee as 'limited' and for which no alternative products are authorised in the EU.

5.7.2. Fee incentives

Scientific advice	100% exemption to the total applicable fee
Administrative fee for negative validation	100% exemption to the total applicable fee

Establishment or extension of an MRL for a substance with respect to an relevant indication	50% reduction to the total applicable fee
Application for a marketing authorisation	50% reduction to the total applicable fee
Extension of a marketing authorisation for a product indicated for a food-producing species to add a minor species	50% reduction to the total applicable fee
Type II variation to a marketing authorisation for a non-food-producing species to add a minor species.	50% reduction to the total applicable fee
Extrapolations of existing MRLs to relevant minor species for which no data are required and therefore no assessment is performed	100% reduction to the total applicable fee
Annual fee for a product authorised exclusively for indications classified by the CVMP	75% reduction to the total applicable fee

The additional information in this annex is listed using the same numbering as the corresponding sections in chapters 1 to 4. For example, section A.1.1.2. in this annex relates to section 1.1.2. in Chapter 1.

A.1. Medicinal products for human use

A.1.1.2. Examples of the determination of fees for applications for marketing authorisation

It should be noted that the calculation of the total fee for a marketing authorisation application is driven by the pharmaceutical forms, the associated strengths and the associated presentations. The examples shown below do not represent an exhaustive list.

Scenario		Fee payable
1. Full dossier application for a medicinal product having one pharmaceutical form with one strength and X presentations		274 400 EURO (basic fee including one pharmaceutical form and one associated strength and one presentation) + (X-1)*6 900 EURO (additional presentations associated with the single strength)

Scenario		Fee payable
2. Full dossier application for a medicinal product having two pharmaceutical forms with two strengths and X presentations/ strength associated with the first form and one strength and Y presentations associated with the second form		274 400 EURO (basic fee including one pharmaceutical form and one associated strength and one presentation) + (X-1)*6 900 EURO (additional presentations associated with the first form and strength) + 27 500 EURO (second strength associated with the first form including one presentation) + (X-1)*6 900 EURO (additional presentations associated with the first form and second strength) + 27 500 EURO (second form including its associated strength and one presentation) + (Y-1)*6 900 EURO (additional presentations associated with the second form and its strength)

Scenario		Fee payable
3. Full dossier application for an insulin product having two pharmaceutical forms with six strengths (consisting of two sets of one uncombined preparation and two combination preparations (having different proportions of insulin) with insulin amounts corresponding to A I.U. and B I.U.) and X presentations/strength associated with the first form; and two strengths (of un-combined preparations with insulin amounts corresponding to A I.U. and B I.U.) and Y presentations/strength associated with the second form	 (u) = un-combined insulin preparation (c) = combination insulin preparation (refer to section 1.1.1 for definition of strength of insulin products)	274 400 EURO (basic fee including one pharmaceutical form and one associated strength and one presentation) + (X-1)*6 900 EURO (additional presentations associated with the first form and strength) + 5*27 500 EURO (for second to sixth strengths associated with the first form including one presentation for each strength) + 5*(X-1)*6 900 EURO (additional presentations associated with the second to sixth strengths of the first form) + 27 500 EURO (second form including one associated strength and one presentation) + (Y-1)*6 900 EURO (additional presentations associated with the second form and first strength) + 27 500 EURO (second strength associated with the second form including one presentation) + (X-1)*6 900 EURO (additional presentations associated with the second form and second strength)

A.1.1.3. Examples of the determination of fees for extensions of marketing authorisation

It should be noted that the basic fee for an extension of a marketing authorisation is driven by the pharmaceutical form. The examples shown below do not represent an exhaustive list.

Scenario	Extension application	Fee payable
1. New pharmaceutical form with two strengths and X presentations/strength, for authorised or new route of administration (with submitted/cross-referenced clinical data)	One pharmaceutical form, first strength and X presentations Second strength (of same new pharmaceutical form) and X presentations	82 400 EURO (basic fee for extension) + (X-1)*6 900 EURO (additional presentation fees) + 20 600 EURO (additional strength fee) + (X-1)*6 900 EURO (additional presentation fees)
2. New route of administration for authorised pharmaceutical form with two authorised strengths and X presentations/strength (with submitted/cross-referenced clinical data)	Route of administration for authorised pharmaceutical form, first strength and X presentations Second strength (same new route of administration for same authorised pharmaceutical form) and X presentations	82 400 EURO (basic fee for extension) + (X-1)*6 900 EURO (additional presentation fees) + 20 600 EURO (additional strength fee) + (X-1)*6 900 EURO (additional presentation fees)
3. Two new strengths of same authorised pharmaceutical form and X presentations/strength (without submitted/cross-referenced clinical data)	First new strength and X presentations Second new strength (of same authorised pharmaceutical form) and X presentations	61 800 EURO (basic fee for extension) + (X-1)*6 900 EURO (additional presentation fees) + 20 600 EURO (additional strength fee) + (X-1)*6 900 EURO (additional presentation fees)
4. One new strength of each of two authorised pharmaceutical forms and X presentations/strength (without submitted/cross-referenced clinical data) *THESE SHOULD BE SUBMITTED AS TWO EXTENSION APPLICATIONS*	New strength (of first authorised pharmaceutical form) and X presentations	61 800 EURO (basic fee for extension) + (X-1)*6 900 EURO (additional presentation fees)
	New strength (of second authorised pharmaceutical form) and X presentations	61 800 EURO (basic fee for extension) + (X-1)*6 900 EURO (additional presentation fees)

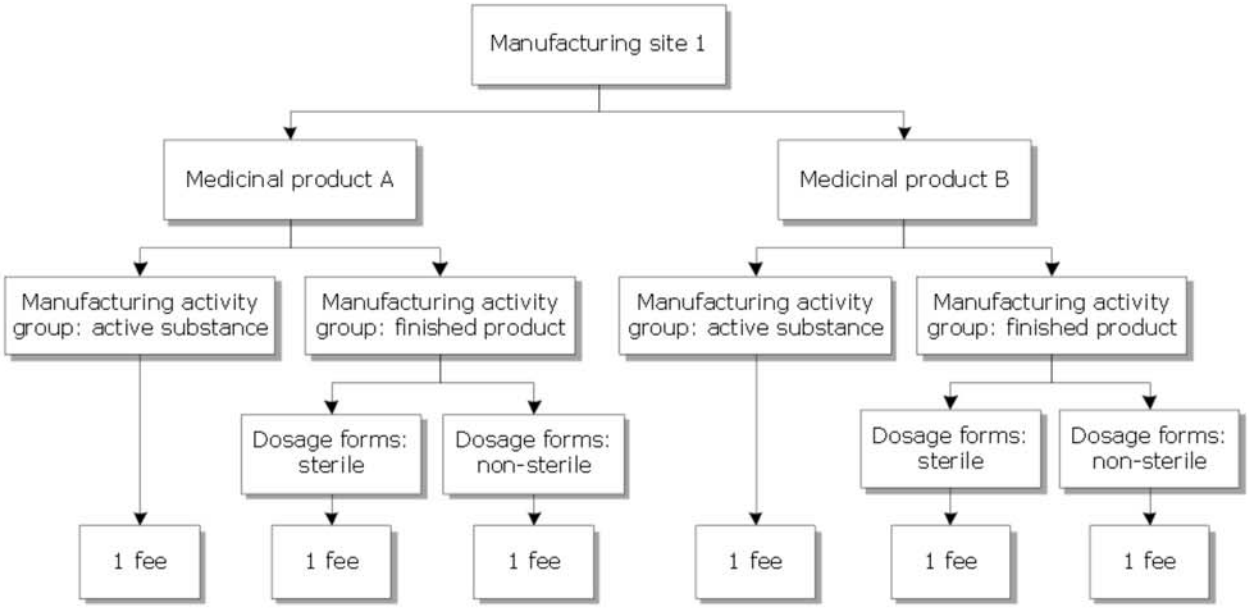
A.1.1.6. Examples of the determination of fees for renewals of marketing authorisation

It should be noted that the number of renewal fees charged for a medicinal product depends on the number of strengths associated with each pharmaceutical form determined as shown in section A.1.1.2. The number of presentations is not taken into consideration for the calculation of the renewal fee. The examples shown below do not represent an exhaustive list.

Scenario	Strengths associated with a pharmaceutical form	Fee payable
1. Full dossier application for a medicinal product having one pharmaceutical form with one strength and X presentations	One strength associated with one pharmaceutical form	13 600 EURO (basic fee for renewal)
2. Full dossier application for a medicinal product having two pharmaceutical forms with two strengths and X presentations/ strength associated with the first form and one strength and Y presentations associated with the second form	Two strengths associated with first pharmaceutical form One strength associated with second pharmaceutical form	2*13 600 EURO (basic fee for renewal) + 13 600 EURO (basic fee for renewal)
3. Full dossier application for an insulin product having two pharmaceutical forms with six strengths (consisting of two sets of one un-combined preparation and two combination preparations (having different proportions of insulin) with insulin amounts corresponding to A I.U. and B I.U.) and X presentations/ strength associated with the first form; and two strengths (of un-combined preparations with insulin amounts corresponding to A I.U. and B I.U.) and Y presentations/strength associated with the second form	Six strengths associated with first pharmaceutical form Two strengths associated with second pharmaceutical form	6*13 600 EURO (basic fee for renewal) + 2*13 600 EURO (basic fee for renewal)

A.1.1.7. Examples of the determination of fees for GMP inspections

In accordance with Annex IV to the "Rules for the implementation of Council Regulation (EC) No 297/95 on fees payable to the European Medicines Agency and other measures", applicants are liable for more than one inspection fee on the basis of the following flowchart.



The examples shown below do not represent an exhaustive list. They apply to good manufacturing practice (GMP) inspections in relation to medicines for human use and to medicines for veterinary use.

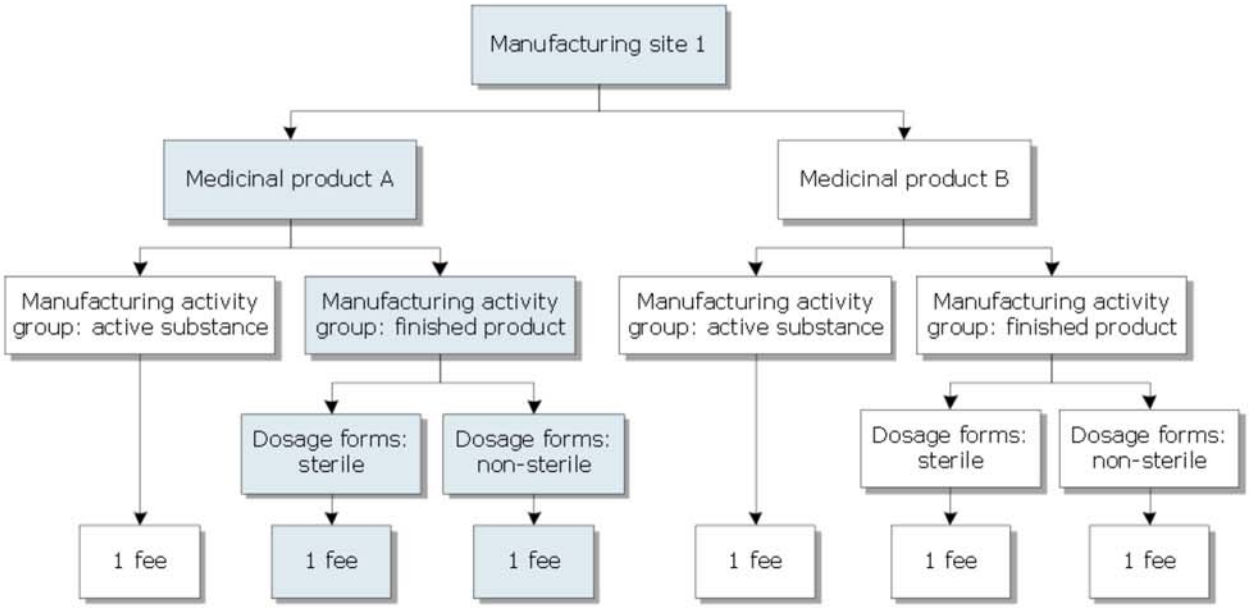
Scenario 1:

GMP inspection of manufacturing site 1 for one medicinal product A and involving two pharmaceutical forms: capsules (non-sterile) and solution for injection (sterile). The manufacturing activity for the two pharmaceutical forms is the same, i.e. manufacture of the finished product.

Fee payable: 2 basic fees (level I), i.e. 20 600 EURO + 20 600 EURO = 41 200 EURO

Rationale: there are two types of dosages forms (sterile and non-sterile) and each one attracts a basic fee (Level I).

The applicable fees to be paid are represented by the grey boxes in the flowchart below.



Scenario 2:

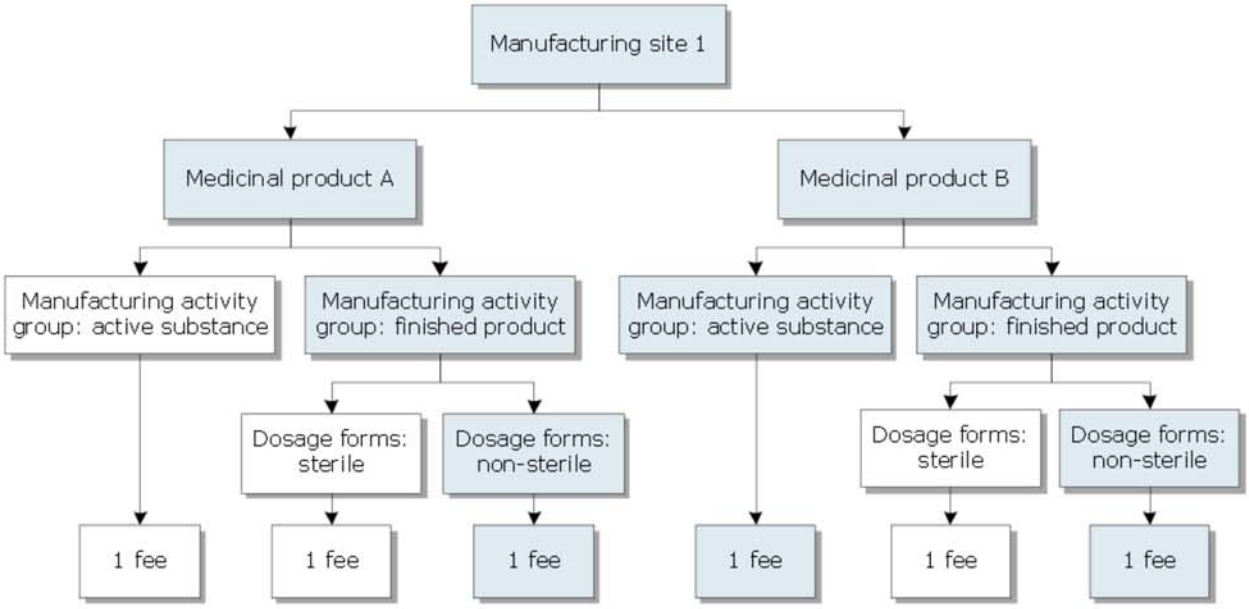
GMP inspection of manufacturing site 1 for two medicinal products (A and B). Product A involves only one pharmaceutical form (capsules) and one pharmaceutical activity (primary packaging). Product B also involves one pharmaceutical form (tablets) and four manufacturing activities (manufacture of the active substance, quality control of the active substance, manufacture of the finished product and primary packaging).

Fee payable: 3 basic fees (Level I), i.e. 20 600 EURO + 20 600 EURO + 20 600 EURO = 61 800 EURO

Rationale: Product A attracts only one fee because there is only one group of manufacturing activities (i.e. finished product) and one dosage form (non-sterile). Product B attracts two fees because there are manufacturing activities related to each group as follows:

- Group Active Substance: manufacture of the active substance and quality control of the active substance
- Group Finished Product: manufacture of the finished product and Primary Packaging

The applicable fees to be paid are represented by the grey boxes in the flowchart below.



A.2. Medicinal products for veterinary use

A.2.1.2. Examples of the determination of fees for applications for marketing authorisation

It should be noted that the calculation of the total fee for a marketing authorisation application is driven by the pharmaceutical forms, the associated strengths and the associated presentations. The number of target species is irrelevant. The examples shown below do not represent an exhaustive list.

Scenario		Fee payable
1. Full dossier application for a medicinal product having one pharmaceutical form with one strength and X presentations		137 300 EURO (basic fee including one pharmaceutical form and one associated strength and one presentation) + (X-1)*6 900 EURO (additional presentations associated with the single strength)
2. Full dossier application for a medicinal product having two pharmaceutical forms with two strengths and X presentations/ strength associated with the first form and one strength and Y presentations associated with the second form		137 300 EURO (basic fee including one pharmaceutical form and one associated strength and one presentation) + (X-1)*6 900 EURO (additional presentations associated with the first form and strength) + 13 600 EURO (second strength associated with the first form including one presentation) + (X-1)*6 900 EURO (additional presentations associated with the first form and second strength) + 13 600 EURO (second form including its associated strength and one presentation) + (Y-1)*6 900 EURO (additional presentations associated with the second form and its strength)

A.2.1.3. Examples of the determination of fees for extensions of marketing authorisation

It should be noted that the basic fee for an extension of a marketing authorisation is driven by the pharmaceutical form. The examples shown below do not represent an exhaustive list.

Scenario	Extension application	Fee payable
1. New pharmaceutical form with two strengths and X presentations/strength, for authorised/new route of administration (with submitted/cross-referenced clinical data)	One pharmaceutical form, first strength and X presentations Second strength (of same new pharmaceutical form) and X presentations	34 300 EURO (basic fee for extension) + (X-1)* 6 900 EURO (additional presentation fees) + 8 600 EURO (additional strength fee) + (X-1)* 6 900 EURO (additional presentation fees)
2. New route of administration for authorised pharmaceutical form with two authorised strengths and X presentations/strength (with submitted/cross-referenced clinical data)	Route of administration for authorised pharmaceutical form, first strength and X presentations Second strength (same new route of administration for same authorised pharmaceutical form) and X presentations	34 300 EURO (basic fee for extension) + (X-1)*6 900 EURO (additional presentation fees) + 8 600 EURO (additional strength fee) + (X-1)*6 900 EURO (additional presentation fees)
3. Two new strengths of same authorised pharmaceutical form and X presentations/strength (without submitted/cross-referenced clinical data)	First new strength and X presentations Second new strength (of same authorised pharmaceutical form) and X presentations	30 900 EURO (basic fee for extension) + (X-1)*6 900 EURO (additional presentation fees) + 8 600 EURO (additional strength fee) + (X-1)*6 900 EURO (additional presentation fees)
4. One new strength of each of two authorised pharmaceutical forms and X presentations/strength (without submitted/cross-referenced clinical data) THESE SHOULD BE SUBMITTED AS TWO EXTENSION	New strength (of first authorised pharmaceutical form) and X presentations	30 900 EURO (basic fee for extension) + (X-1)*6 900 EURO (additional presentation fees)
	New strength (of second authorised pharmaceutical form) and X presentations	30 900 EURO (basic fee for extension) + (X-1)*6 900 EURO (additional presentation fees)

Scenario	Extension application	Fee payable
APPLICATIONS	New pharmaceutical form for new target species, first strength and X presentations Second strength (of same new pharmaceutical form for same new target species) and X presentations	34 300 EURO (basic fee for extension) + (X-1)*6 900 EURO (additional presentation fees) + 8 600 EURO (additional strength fee) + (X-1)*6 900 EURO (additional presentation fees)
	New pharmaceutical form for a new target species, one strength and X presentations	34 300 EURO (basic fee for extension) + (X-1)*6 900 EURO (additional presentation fees)
	Second new target species of authorised pharmaceutical form, new strength and X presentations Second strength (for same new target species of authorised pharmaceutical form) and X presentations	34 300 EURO + (X-1)*6 900 EURO (additional presentation fees) +8 600 EURO (additional strength fee) + (X-1)*6 900 EURO (additional presentation fees)

A.2.1.6. Examples of the determination of fees for renewals of marketing authorisation

It should be noted that the number of renewal fees charged for a medicinal product depends on the number of strengths associated with each pharmaceutical form determined as shown in section A.2.1.2. The number of presentations is not taken into consideration for the calculation of the renewal fee. The examples shown below do not represent an exhaustive list.

Scenario	Strengths associated with a pharmaceutical form	Fee payable
1. Full dossier application for a medicinal product having one pharmaceutical form with one strength and X number of presentations	One strength associated with one pharmaceutical form	6 900 EURO (basic fee for renewal)
2. Full dossier application for a medicinal product having two pharmaceutical forms with two strengths and X number of presentations/strength associated with the first form and one strength and Y number of presentations associated with the second form	Two strengths associated with first pharmaceutical form One strength associated with second pharmaceutical form	2*6 900 EURO (basic fee for renewal) + 6 900 EURO (basic fee for renewal)

A.3. Administrative fees

A.3.2. Examples of the determination of fees for certificates of medicinal product

In accordance with Annex III of the "Rules for the implementation of Council Regulation (EC) No 297/95 on fees payable to the European Medicines Agency and other measures", requesters are liable for more than one fee depending on the number of medicinal products, importing countries, languages and annexes.

The examples shown below do not represent an exhaustive list.

Scenario 1:

One request for certificates for one medicinal product, as follows:

- Addressed to country 1: 5 certificates with annex 1
- Addressed to country 2: 10 certificates with annex 1

Fee payable using the standard procedure:

1 basic fee for the first set of 5 certificates for country 1 = 280 EURO

1 additional fee for the second set of maximum 6 out of 10 certificates for country 2 = 140 EURO

1 additional fee for the third set of 4 out of 10 certificates for country 2 = 140 EURO

Total fee: 280 EURO + 140 EURO + 140 EURO = 560 EURO

Fee payable using the urgent procedure:

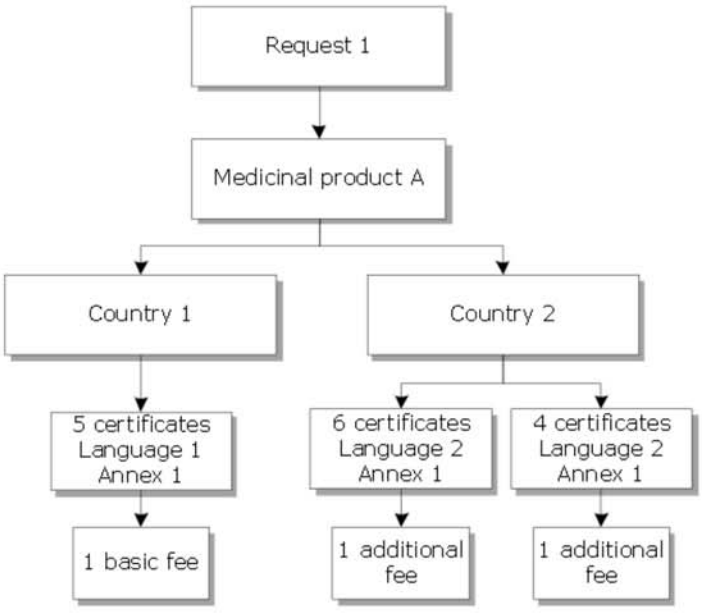
1 basic fee for the first set of 5 certificates for country 1 = 840 EURO

1 additional fee for the second set of maximum 6 out of 10 certificates for country 2 = 420 EURO

1 additional fee for the third set of 4 out of 10 certificates for country 2 = 420 EURO

Total fee: 840 EURO + 420 EURO + 420 EURO = 1 680 EURO

The applicable fees to be paid using the standard procedure are represented in the flowchart below.



Scenario 2:

One request for certificates for two medicinal products, as follows:

- Medicinal product A:
  - Addressed to country 1: 5 certificates with annex 1
  - Addressed to country 2: 6 certificates with Annex 1, 9 certificates with annexes 1 and 2
- Medicinal product B:
  - Addressed to country 1: 15 certificates with annex 1
  - Addressed to country 2: 6 certificates with annex 1

Fee payable using the standard procedure:

1 basic fee for the first set of 5 certificates for medicinal product A for country 1 = 280 EURO

1 additional fee for the second set of 6 certificates for medicinal product A for country 2 = 140 EURO

1 additional fee for the third set of maximum 6 out of 9 certificates for medicinal product A for country 2 = 140 EURO

1 additional fee for the fourth set of 3 out of 9 certificates for medicinal product A for country 2 = 140 EURO

1 additional fee for the fifth set of maximum 6 out of 15 certificates for medicinal product B for country 1 = 140 EURO

1 additional fee for the sixth set of maximum 6 out of 15 certificates for medicinal product B for country 1 = 140 EURO

1 additional fee for the seventh set of 3 out of 15 certificates for medicinal product B for country 1 = 140 EURO

1 additional fee for the eighth set of 6 certificates for medicinal product B for country 2 = 140 EURO

Total fee: 280 EURO + (140 EURO * 7) = 1 260 EURO

Fee payable using the urgent procedure: applying the same rationale as for the standard procedure, one basic fee and seven additional fees are payable.

Total fee = 840 EURO (420 EURO* 7) = 3 780 EURO

The applicable fees to be paid using the standard procedure are represented in the flowchart below.
