INDUSTRIAL PHARMACEUTICAL MICROBIOLOGY:
Standards & Controls
Editors – Dr Norman Hodges and Professor Geoff Hanlon (University of Brighton)

CHAPTERS AND AUTHORS

1. The role of the Qualified Person in microbiological quality assurance
   John Dolman
   The Dolman Consultancy Ltd, Worthing, UK

2. Safety in microbiology
   John Daniels
   BioSafe Safety Services, Wallington, UK

3. Statistics and statistical process control in pharmaceutical microbiology
   Matthew Ingram and Tom Cochrane
   University of Brighton, and NAPP Pharmaceuticals, Cambridge, UK

4. Microbiology of water as an ingredient and product
   Mike Edgington
   Edgington Associates BV, Sassenheim, The Netherlands

5. Rapid enumeration and identification methods
   Mike Wassall
   Eli Lilly & Co, Liverpool, UK

6. Microbiological environmental monitoring
   Sharon Johnson
   Baxter Healthcare Ltd, Thetford, UK

7. Selection and use of cleaning and disinfection agents in pharmaceutical manufacturing
   Tim Sandle
   Bio Products Laboratory, Elstree, UK

8. Prevention and elimination of microbial biofilms in the manufacturing environment using Clean-in-Place
   Alex Blanchard
   Proctor & Gamble Technical Centres Ltd, Egham, UK

9. Cleanroom design, operation and regulatory standards
   Clive Hayler
   Primarius Ltd, Steyning, UK

10. Isolator technology
    Mary-Anne Weatherhead and Stewart Green
    Wyeth Pharmaceuticals, Havant, UK

11. Validation of aseptic processing and media fills
    Trevor Deeks
    Skanska Pharmaceutical Group, London, UK

12. Endotoxins and depyrogenation
    David Guy
    Cambrex BioScience Ltd, Wokingham, UK

13. Biological indicators
    Nigel Halls
    Nigel Halls Consulting, Brighton, UK

14. New and emerging sterilization technologies
    Eric Dewhurst and Eamonn Hoxey
    Ivax Pharmaceuticals UK Ltd, Runcorn and Johnson & Johnson, Bracknell, UK

15. Parametric release
    Stewart Green
    Wyeth Pharmaceuticals, Havant, UK

16. International disinfectant testing protocols
    David Payne
    Reckitt Benckiser Healthcare (UK) Ltd, Hull, UK

17. Measurement of biocide effectiveness
    Ronnie Lambert
    R²-Scientific, Sharnbrook, UK

18. Microbiological quality and regulatory requirements for biotherapeutics and manufactured products
    Daniel Galbraith
    Q-One Biotech Ltd, Glasgow, UK

19. The role of the microbiologist in HACCP
    Michael Jahnke
    Wulfg Pharma GmbH, Gronau/Leine, Germany

20. Auditing the pharmaceutical microbiology department
    Robert Johnson
    PLIVA Pharma Ltd, Petersfield, UK

21. A compendium of microbiological standards and regulations
    Norman Hodges and Geoff Hanlon
    University of Brighton, Brighton, UK
INDUSTRIAL PHARMACEUTICAL MICROBIOLOGY: Standards & Controls
Editors – Dr Norman Hodges and Professor Geoff Hanlon (University of Brighton)

PUBLISHED SUPPLEMENTS

IPM1. The microbiological quality and regulatory requirements for natural and nutraceutical products
Martin Dennison, Seven Seas Limited, Hull, UK

IPM2. The regulatory control and quality assurance of immunological products
Michael J Corbel, Division of Bacteriology, National Institute of Biological Standards and Control, Potters Bar, UK

IPM3. Containment system integrity – sterile products
Nigel Halls, NHC-Nigel Halls Consulting, Brighton, UK

IPM4. Regulatory guidelines (microbiology) for veterinary antimicrobial products
Peter Silley, MB Consult Ltd, Bingley, UK and University of Bradford, UK

IPM5. Legislation affecting pharmaceutical microbiology: guidance on available documentation
Paul Tearle, BioSafe Safety Services, Wallington, UK

IPM6. Process Analytical Technology (PAT): a microbiological perspective
Stewart Green, Wyeth Pharmaceuticals, Havant, UK

IPM7. Filtration
Claire Jarmey-Swan, Porvair Filtration Group Ltd, Fareham, UK

IPM8. Regulatory expectations for non sterile manufacture of pharmaceutical dose forms
Stewart Green, GXP Consultants Ltd, Fareham, UK

IPM9. Best practices for microbiological documentation
Tim Sandle, Bio Products Laboratory, Elstree, UK

IPM10. Bacterial spores
Peter Setlow, Dept of Molecular, Microbial and Structural Biology, University of Connecticut, USA

Supplements are available either as hard copy booklets or pdfs. Hard copy supplements cost £20 plus postage & packing. Pdfs cost £23 including VAT. To order visit the side menu Manual Supplements, select the required supplement and complete the order form.
